Respect and maintain company's IPR at work

## National Occupational Standard

#### **Overview**

This unit is about respecting intellectual property rights of the company's products and designs. Intellectual property and Unique Selling Proposition is what makes a particular product or brand or company attract the customers to its products. This is an important "secret" of any organization and hence is a closely guarded.

#### Respect and maintain company's IPR

| Keywords /Terms                      | Description   |  |  |
|--------------------------------------|---|--|--|
| Sector                               | Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.   |  |  |
| Sub-sector                           | Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.  |  |  |
| Occupation                           | Occupation is a set of job roles, which perform similar/ related set of functions in an industry.   |  |  |
| Function                             | Function is an activity necessary for achieving the key purpose of the sector, occupation, or an area of work, which can be carried out by a person or a group of persons. Functions are identified through functional analysis and form the basis of OS.                                   |  |  |
| Sub-function                         | Sub-functions are sub-activities essential to fulfil the achieving the objectives of the function.  |  |  |
| Job role                             | Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.   |  |  |
| Occupational Standards (OS)          | OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the knowledge and understanding they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts. |  |  |
| Performance Criteria                 | Performance criteria are statements that together specify the standard of performance required when carrying out a task.  |  |  |
| National Occupational Standards (OS) | NOS are occupational standards which apply uniquely in the Indian context.  |  |  |
| Qualifications Pack (QP)             | QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.  |  |  |
| Unit Code                            | Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'   |  |  |
| Unit Title                           | Unit title gives a clear overall statement about what the incumbent should be able to do.   |  |  |
| Description                          | Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.  |  |  |
| Scope                                | Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.   |  |  |
| Knowledge and<br>Understanding       | Knowledge and understanding are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.   |  |  |
| Organisational Context               | Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.  |  |  |
| Technical Knowledge                  | Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.  |  |  |
| Core Skills/ Generic<br>Skills       | Core skills or generic skills are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in   |  |  |
