

On 9<sup>th</sup> June, 2018, Gems and jewellery skill council India held its “QP Validation Workshop” for New Silversmithing qualification packs in Hupari, Maharashtra.

The New Silversmithing QPs mainly focuses on in detail process documentation of various techniques, practices used by artisans for making silver jewellery or articles like payal, tarakasi.

The Qualification packs encompasses detail process steps of operations like melting, alloying, plating, soldering, enamelling etc.

Many respectable businessmen, artisans, industry experts from the silver industry were present for the workshop.

They shared their valuable experience, feedback and expectations regarding overall need of skill training, introduction to new technology and equipment’s to upgrade and flourish traditional jewellery making they have been working on from generation to generations.
